Cominar Remains Focused

Québec, August 4, 2016 — Cominar Real Estate Investment Trust ("Cominar" or the "REIT") (TSX: CUF.UN) announced today its results for the second quarter of fiscal 2016.

Highlights for the Quarter Ended June 30, 2016

- Increased occupancy rate to 92.6%
- Disposition of income properties for \$39.3M

"At the operational level, our more aggressive leasing policy helped us to sign new leases aggregating 2.3 million square feet since the beginning of the year, which is much higher than the total of new leases signed during the year 2015. This excellent performance contributed to increase our occupancy rate to 92.6% as at June 30, 2016, up 0.7% from December 31, 2015," said Michel Dallaire, Chief Executive Officer and Chairman of the Board of Trustees of Cominar.

"During the quarter, we pursued our capital optimization strategy through property dispositions for a total price of \$39.3 million. The proceeds from the sale of these properties were used to pay down our debt, according to our financial management principles for maintaining a strong and healthy balance sheet on a long-term basis," said Gilles Hamel, Executive Vice President and Chief Financial Officer of Cominar.

PRESENTATION OF RESULTS

For the quarter ended June 30, 2016, **operating revenues** amounted to \$217.3 million, compared to \$224.8 million for the corresponding period of 2015. This decrease resulted primarily from the dispositions of income properties completed in 2015 and 2016.

Net operating income⁽¹⁾ reached \$116.1 million compared to \$122.8 million for the corresponding period of 2015. This decrease resulted primarily from the dispositions of income properties completed in 2015 and 2016.

Net income for the second quarter of 2016 amounted to \$69.8 million, down \$4.5 million compared to net income for the corresponding period of 2015. This decrease results from the \$6.7 million decrease in net operating income explained above, which was partially offset by a reduction in finance charges of \$2.3 million.

Cash flows provided by operating activities reached \$23.2 million for the second quarter of 2016, compared to \$25.4 million for the corresponding period of 2015.

Recurring funds from operations⁽¹⁾ amounted to \$70.9 million, while **recurring funds from operations per unit fully diluted**⁽¹⁾ amounted to \$0.42 for the second quarter of 2016.

Recurring adjusted funds from operations⁽¹⁾ for the second quarter of 2016 amounted to \$61.8 million. Fully diluted per unit, they amounted to \$0.37.

FINANCIAL SITUATION

As at June 30, 2016, Cominar's **debt ratio** was at 54.4 % and **total assets** amounted to \$8.3 billion. As at the end of the quarter, the unsecured revolving credit facility used was \$246.5 million, down \$134.7 million from December 31, 2015. Cash available was \$453.5 million as at June 30, 2016.

LEASING ACTIVITIES

During the first half of 2016, our leasing efforts in the retail segment have increased the occupancy rate by 1.9% in this segment, thereby contributing to the increase of 0.7% in overall occupancy rate, from 91.9% as at December 31, 2015, to 92.6% as at June 30, 2016. This increase is the result of a more aggressive leasing policy that allowed Cominar to sign new leases for a total of 2.3 million square feet since the beginning of the year.

DISPOSITIONS

During the second quarter, in line with our capital optimization strategy, we completed the sale of a portfolio of 5 retail properties located in Quebec, for a total price of \$39.3 million, at a capitalization rate of 7.0%. The proceeds from the sale of these properties were used to pay down our debt. Since the beginning of 2016, income properties were sold for a total price of \$109.7 million, which confirmed the assessed value of our properties in our books. As at June 30, 2016, the portfolio of income properties held for sale over the coming quarters was worth \$149.0 million.

FINANCING

During the second quarter, in accordance with its prudent debt management principles, Cominar early refinanced Series 6 unsecured debentures maturing in September 2016 by issuing \$225 million Series 10 unsecured debentures bearing interest at 4.247% and maturing in 2023.
